

SCHEDULE FOR ONE HOUR SYNCHRONIOUS SESSION PER WEEK**Technology: Webex in UMLearn (Communication -> Cisco Webex)**

1. Warm up and progress update on the course -----10 mins
2. Break out session:-----40 mins
 - a. Meet in case study groups for the first meeting and the instructor joins each breakout group to answer any questions/comments/observations
 - b. Breakout groups assigned to one of the 5 koppen climate classification types. Students present climate responsive design strategies as rough sketches of a built form on whiteboards.
 - c. In breakout groups watch the assigned video on technological, political or social ideas for a carbon neutral built environment. Present a summary of the video to the rest of the class in the main session.
 - d. Break out in groups of 2 to find out one lifestyle change that they will make after taking this course. Share their findings in the main session.
3. General questions on submissions, weekly activities and wrap up-----10 mins
